Graduate Logistics Manager - Leadership Program, Spain (Bilbao)

Job Description: We are seeking Graduate Area and Shift Managers to join our vast fulfillment and operations network, in various locations across Spain. These are positive, self-motivated individuals with just the right combination of leadership skills and professional business acumen. This is a permanent position from day one.

You'll be an inspiring leader in one of the following areas within the FC operations: Receive, Stow, Pick, Pack or Ship. Or you might work at one of our Delivery Stations, where you will work to continuously improve the efficiency of delivery processes, ensuring that customer orders are delivered as quickly, accurately, and cost-effectively as possible.

In this position, you will lead a team of associates from day one. This kind of opportunity isn't often presented to graduates fresh out of university. At Amazon, however, we trust the people we hire and provide plenty of support to help you hit the ground running. Our culture is very learn-by-doing oriented; you will take control of your career.

Leading by example, you'll be responsible for the training and integration of your team, while driving progress. This symbiotic relationship also makes this position even more rewarding and impactful, as you strive for excellence together with the team you manage.

You'll exercise sound judgement, making sure progress and targets are realistic and achievable. And it'll be worth it; the impact you could have, within one of the world's biggest, most innovative companies, won't go unnoticed. With us, you can have a hand in creating the future of operations and logistics.

Requirements:
- You obtained or are working towards a Master's Degree
- You are flexible to relocate for the position if needed
- You are willing to work in non-traditional shift pattern, which may include nights and weekends
- You speak fluent Spanish and English

How to apply:
Please send your CV in English to Rita Palmeira (palmeira@amazon.com) and for additional info to Urko Vilariño (urko.vd@opendeusto.es).
